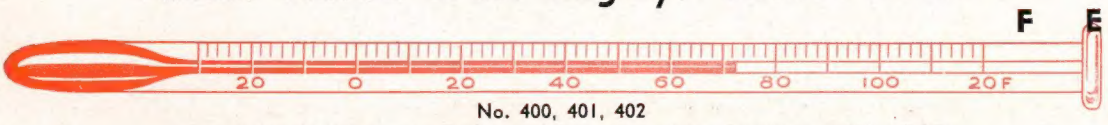
THERMOMETERS

RED SPIRIT — CARROLL GLASS PHILADELPHIA INSTRUMENT CO. — **MERCURY**

AS USED BY REFRIGERATION SALES AND SERVICE

Nickel Plated Brass Highly Polished Case



No. 400, 401, 402

ALL PARTS ARE INTERCHANGEABLE AND EASILY REPLACED

Thermometer F slides through C where the large top of Thermometer E is caught by shoulder in C. B screws into C and holds Thermometer fast. A screws into B.

A clear view easy reading Thermometer made of hard Carroll Glass, designed to give the utmost in instrument accuracy and dependability. Easily interchangeable refills with engraved scale.

The Calibration marks and numbers are engraved on the glass, filled with a black colored filling, fused and burnt into the graduations; cannot be rubbed off, insoluble, and not affected by brine or alcohol.

The outside tube of the case can be reversed, which gives a large extension to the Thermometer unit for handling, immersion, etc.

BEADED CHAINS

CAN BE SUPPLIED
ON ALL THERMOMETER CASES

Especially adapted for service work where it is necessary to insert the Thermometer in brine tanks, etc. The case when laid flat at the opening of the tank acts as a holder.

Nickel plated brass chain will not kink or rust.

Length of chain, ten inches, can be supplied in any length at a very slight advance in price.

Cases when supplied with chain, 20c extra.
